

# Consultation on ID products

Fields marked with \* are mandatory.

## Public consultation on the compliance of the all NEMOs' proposal for **Products that can be taken into account by NEMOs in intraday coupling process** with the CACM Regulation

PC\_2019\_E\_12

This consultation is addressed to all interested stakeholders, including regulatory authorities, nominated electricity market operators and transmission system operators. Replies to this consultation should be submitted to by **11 November 2019, 23:59 hrs** (CET). Questions should be addressed to ACER at: [ACER-ED-022@acer.europa.eu](mailto:ACER-ED-022@acer.europa.eu)

### Introduction

---

\* Name and surname

\* Company, address, phone

\* Country

- Austria
- Belgium
- Bulgaria
- Croatia
- Cyprus
- Czech Republic
- Denmark
- Estonia
- Finland
- France
- Germany
- Great Britain
- Greece
- Hungary

- Ireland
- Italy
- Latvia
- Lithuania
- Luxembourg
- Malta
- Netherlands
- Northern Ireland
- Poland
- Portugal
- Romania
- Slovak Republic
- Slovenia
- Spain
- Sweden

\* Email

\* Is your input into this consultation confidential?

- YES
- NO

\* Please, explain what is the reasoning of your confidential submission. (*see Chapter 4 for details*)

In case your answer is confidential, please submit a non-confidential version as well. The Agency will carefully consider all responses received (whether confidential or not), but anonymous responses will generally not be taken into consideration. For further details see the [ACER guidance note on consultations](#).

## Context

---

### Objectives

The objective of this consultation is to gather views and information from stakeholders regarding the compliance of all Nominated Electricity Market Operators' proposal for the Products that can be taken into account by NEMOs in intraday coupling process ('ID Product proposal') that has been developed in accordance with Article 53 of Commission Regulation (EU) 2015/1222 ('CACM Regulation') and referred to ACER for decision. The input from the consultation will be used for ACER's evaluation in preparing its decision on that proposal according to Article 5(2)(b) of Regulation (EU) 2019/942.

## Legal background

In accordance with Article 53 of the CACM Regulation, all Nominated Electricity Market Operators ('NEMOs') were obliged to develop a products that can be taken into account by NEMOs in intraday coupling processes. The proposal needed to be submitted to all regulatory authorities for approval no later than 18 months after the entry into force of the CACM Regulation.

All NEMOs submitted the first ID product proposal to all regulatory authorities by 14 February 2017 and, subsequently, all regulatory authorities requested amendments to it by 30 August 2017. All NEMOs then submitted an amended proposal by 1 December 2017. On 24 January 2018, all regulatory authorities unanimously agreed to approve the amended proposal and 11 March 2019 the last regulatory authority approved it.

The present ID Product proposal was submitted to ACER on 1 August 2019.

## Consultation topics and questions

---

ACER is interested in the stakeholders' views on the proposed intraday products. Please note that the products simply establish a choice, while the complexities of their actual usage are covered by the parallel consultation process on all NEMOs' proposal for the price coupling algorithm and for the continuous trading matching algorithm.

Moreover, it is ACER's legal obligation to introduce some changes stemming from Regulation (EU) 2019 /943. Therefore, ACER will introduce the existence of products for the intraday auctions with the granularity of 15, 30 and 60 minutes, which are already envisaged in the intraday requirements of the all NEMOs' proposal for the price coupling algorithm and for the continuous trading matching algorithm.

### Question 1: Do you agree with the choice of intraday products proposed by all NEMOs?

### Any other comments:
